1 Introduction

Buildix Consultants is committed to environmental sustainability and responsible engineering. We recognise our role in reducing environmental harm and contributing positively to the communities and ecosystems affected by our work.

2 Purpose

The purpose of this policy is to outline our commitment to environmental stewardship through our operations, services, and business decisions.

3 Scope

This policy applies to all Buildix Consultants team members, including directors, staff, subcontractors, and project partners. It extends across all services provided by the company, regardless of location.

4 Roles and Responsibilities

All staff are responsible for adopting and upholding this policy in their daily work. The Directors are accountable for overseeing the implementation of environmental practices and ensuring the continual improvement of our Environmental Management System as the business grows.

5 Our Commitments

Buildix Consultants is committed to:

- Reducing environmental impact: Minimising emissions, waste, and resource use in our internal operations and in the engineering solutions we provide.
- Preventing pollution: Designing and delivering services that proactively avoid environmental harm.
- Integrating environmental considerations: Embedding environmental objectives in our strategic planning, projects, and everyday decision-making.
- Supporting climate resilience: Identifying and managing climate-related risks in engineering design and construction support services.
- Promoting awareness and training: Providing information, tools, and training to empower staff to make sustainable choices.

- Continuous improvement: Regularly reviewing and enhancing our environmental performance and management practices.
- Complying with legislation: Meeting or exceeding applicable environmental laws, standards, and client requirements.

6 Stakeholder Engagement

We aim to foster a culture of sustainability among our team, clients, and partners. We will engage and collaborate with stakeholders to encourage innovation and shared responsibility in achieving sustainable outcomes.

7 Implementation and Review

This policy is maintained and periodically reviewed by the Directors to ensure it remains relevant to our operations, aligned with ISO 14001 principles, and supportive of our strategic direction as a growing consultancy.
